FOREWORD

The National Bureau of Plant Genetic Resource (NBPGR), established by the Indian Council of Agricultural Research (ICAR) in 1976 and located at New Delhi, is the National Institute for all the activities pertaining to exploration, acquisition, evaluation, conservation and documentation of Plant Genetic Resources. Its activities are service oriented with primary aim to supply the plant germplasm to various researchers and plant breeders. It is the nodal agency for germplasm collection and as per the need of the country to procure the potential genetic material; systematic efforts have been and are being made to collect the valuable germplasm from different agro-ecological regions.

Division of Plant Exploration and Germplasm Collection (PEGCD) plays a vital role in enriching the national holdings through execution of regular surveys and explorations in order to assemble the new germplasm from various parts of the country. Keeping in view the species wise status of present collections in the genebank and also the specific requirement of the country, the crop specific and multi-crop explorations are planned and executed in collaborative mode with ICAR crop based institutes, SAUs, KVKs and other stakeholders. For efficient management of germplasm as well as to plan and execute the further collection missions, proper documentation of passport information of indigenous collections is essential. The passport information of all the indigenous collection is serially registered and the collected material is assigned with the national identifier (accession) number namely indigenous collection (IC). For proper utilization of the collected germplasm by the breeders and other users, it is essential to enquire about what material have already been collected from which area and where that may be available. To fulfill this need, PEGCD have started annual compilation of passport information in the form of **Plant Germplasm Reporter: Indigenous Collections (2022)**. I am happy to bring this issue of the year 2022 to user scientists and hope that the information under circulation will prove its usefulness for them. The views and suggestions to improve this service are welcomed.

Pusa Campus, New Delhi- 110012

Summary

In 2022, a total of 29 explorations were undertaken across the country wherein 1803 accessions of various agri-horticultural crops, wild relatives of crops and other economic species were collected from 81 districts of 18 states and two union territories of India (Arunachal Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Manipur, Madhya Pradesh, Maharashtra, Meghalaya, Mizoram, Odisha, Rajasthan, Sikkim, Telangana, Uttarakhand, West Bengal, Jammu & Kashmir and Lakshadweep). Of these, 660 accessions were collected through 13 explorations undertaken by the ICAR-NBPGR Headquarters, New Delhi. A total of 542 herbarium specimens, 54 seed samples/economic products were added to the National Herbarium of Cultivated Plants (NHCP). Geo-referencing and mapping of 6,845 accessions of kidney bean (*Phaseolus vulgaris*), 5,202 of lentil (*Lens culinaris*) and 3,770 of horse gram (*Macrotyloma uniflorum*) were undertaken and completed. Fifteen PGR conservation awareness programmes and biodiversity fairs for nutritional and livelihood security of tribal farming communities were organized under NEH and TSP Sub-Plans.

1.1 Plant Exploration and Germplasm Collection

During the report period, a total of 29 explorations were carried out involving 27 collaborators from the NARS system and collected 1803 accessions of different agri-horticultural crops and their crop wild relatives from 81 districts covering 18 states and two union territories of India namely Arunachal Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Himachal Pradesh, Jharkhand, Manipur, Madhya Pradesh, Maharashtra, Meghalaya, Mizoram, Odisha, Rajasthan, Sikkim, Telangana, Uttarakhand, West Bengal, Jammu & Kashmir and Lakshadweep. These collections comprising of diversity in 427 species (cultivated 1000 acc.; 55% and wild species 803 acc.; 45%) belong to 11 crop-groups (Table. 1.1 & Fig. 1.1). Emphasis was mainly given on collecting germplasm of crop wild relatives, minor fruits/wild edibles, unattended species and named landraces from various diversity-rich, remote/ tribal inhabited, disturbed and under-explored areas covering Assam, Arunachal Pradesh, Jammu & Kashmir, Manipur, Mizoram, Rajasthan, Sikkim and Uttarakhand. Of these, 1178 accessions were sent to Germplasm Handling Unit (GHU) for conservation, while the remaining were sent for multiplication and maintenance in National Active Germplasm Sites (NAGS). Details of germplasm collected and explorations conducted by ICAR-NBPGR and its regional stations/base centres are given below (Table 1.1 & Table 1.2).

Table 1.1: Explorations undertaken and germplasm collected

Institute Names and Their Full Form

BAU	Birsa Agricultural University Kanke, Ranchi, Jharkhand
BPSAC	Bhola Paswan Shastri Agricultural College
CISH	Central Institute for Subtropical Horticulture, Lucknow, Uttar Pradesh
CSGRC	Central Sericultural Germplasm Resources Centre, Hosur, Tamil Nadu
CSB	Central Silk Board, Hosur, Tamil Nadu
CSKHPKV	Chaudhary Sarwan Kumar Himachal Pradesh Krishi Vishvavidyalaya, Palampur, Himachal Pradesh
DFR	Directorate of Floricultural Research, Pune, Maharashtra
KVK	Krishi Vigyan Kendra
IARI	Indian Agricultural Research Institute, New Delhi
ICAR	Indian Council of Agricultural Research, New Delhi
IIHR	Indian Institute of Horticultural Research, Bengaluru, Karnataka
IIPR	Indian Institute of Pulses Research Kalyanpur, Kanpur, Uttar Pradesh
IISR	Indian Institute of Spices Research, Kozhikode (Calicut), Kerala
IIVR	ICAR- Indian Institute of Vegetable Research, Regional Research Station, Sargatia, Kushinagar
NBPGR RS	National Bureau of Plant Genetic Resources, Regional Station
NRRI	National Rice Research Institute, Cuttack, Odisha
PJTSAU	Professor Jayashankar Telangana State Agricultural University, Hyderabad, Telangana
RARS	Regional Agricultural Research Station
RVSKVV	Rajmata Vijayaraje Scindia Krishi Vishwa Vidyalaya
SKUAS&T	Sher-e-Kashmir University of Agricultural Sciences and Technology, J&K

**Division of Plant Exploration and Germplasm Collection
ICAR-National Bureau of Plant Genetic Resources
New Delhi – 110012 (India)**
